

DAF BACK-UP - THE BEST IN THE BUSINESS

PACCAR Parts

A PACCAR COMPANY DRIVEN BY QUALITY

DAF

Parts for your entire fleet

The strength of our organisation is illustrated by the enormous range of parts we offer - broad enough to allow you to simplify and streamline your administrative and operational processes, because it allows you to order all your vehicle parts from us and save yourself time.

DAF Genuine Parts

Every DAF truck that rolls off the production line has already travelled a long road through development and testing. This ensures that all our trucks meet the highest standards in relation to safety, reliability, performance, operating costs and the environment. We also place the same high demands on our DAF Genuine Parts, ensuring you obtain the maximum return from your truck. As the parts are specifically designed for your vehicle, you can be sure that they function perfectly together and result in optimum performance.

Thanks to a state of the art inventory management system, your local DAF Dealer always has the correct parts available and with multiple daily deliveries, your order can be delivered directly to you when you need it.

DAF genuine parts carry a full DAF warranty offering further confidence and assurance in the quality and longevity of each part.

DAF Exchange Parts

Just like DAF Genuine Parts, DAF Exchange Parts satisfy the highest quality standards. The same warranty conditions apply to DAF Exchange Parts as for new DAF Genuine Parts. Re-use of parts is better for the environment and, for older vehicles, can result in considerable cost savings.

TRP Truck and Trailer Parts

TRP Truck and Trailer Parts and Consumable range is the largest in the UK with over 100,000 parts. Expansion of the range to include LCV provides a full one stop solution, which is available in over 140 locations across the UK.

Parts in the TRP range are sourced from quality major manufacturers and are backed by a minimum 12-month warranty for added peace of mind. Couple this with industry leading 'off the shelf' availability and multiple daily deliveries from your local dealer, then you really do have the total parts solution for your business!

Follow us on X and LinkedIn for further information and special offers on our products.

PACCAR Parts Fleet Services

The easiest way to facilitate, manage and control payments for parts, offering you consolidated billing as well as a national credit level.

Operators benefit from a network-wide, parts pricing agreement - one price, at any dealer, UK wide. A web portal brings everything together, providing you with the ability to search and view past purchases, copy invoices, account overviews and more.

DAF Webshop

DAF Webshop is the number one platform to order all your parts online. Not only do we have the full DAF OEM range available, we also have our complete TRP range and thousands of vendor branded parts from other suppliers. All the parts you need for your Truck & Trailer repairs and maintenance are online at DAF Webshop. Simply enter the DAF chassis, VIN, engine number or licence plate and all the information you need is displayed at the touch of a button!

The scan functionality now available in DAF Webshop, has made finding and ordering parts even easier! Simply click on the camera icon in the search area and take a photo of the part number or packaging. The photo is automatically uploaded to Webshop, where the part number is analysed and identified using optical character recognition technology. Once a part has been identified, you can see its availability, the price and stock level at your dealer, and the alternatives we are offering. You can then easily add the part to your order basket with just one click. The scan function is intended specifically for smartphones and tablets. There is no need to install a new app on your device.

Full information regarding technical drawings and related parts are also available in Webshop, the same as when using the Repair and Maintenance information tool. Simply search on the chassis number or licence plate and go via the main groups to the correct technical drawing. All the parts related to that drawing are listed and can then be added to the parts basket.

DAF Webshop is available 24/7 on your computer, smart phone and tablet, saving you both time and money! Contact your local dealer for more information.

DAF Services

DAF MULTISUPPORT

Maximise uptime. Increase fleet efficiency. When it comes to flexibility, cost transparency and uptime, a DAF MultiSupport Repair and Maintenance package is your best choice. Tailored packages including pro-active maintenance planning using real time vehicle data, to help you keep your trucks in excellent condition and on the road.

PACCAR FINANCIAL

As DAF's in-house finance provider, PACCAR Financial provides tailored and complete financial services to the transport sector. A unique understanding of your day-to-day business makes PACCAR Financial your partner of choice.

DAFaid

Accidents and breakdowns are an inevitable part of the transport business, even for the best trucks. So it's good to know that DAFaid is just a telephone call away. 24 hours a day, 365 days a year, our team of highly skilled technicians will do everything possible to get your truck back on the road fast. When abroad, DAF ITS (International Truck Services) picks up the baton.

PACCAR PARTS

PACCAR Parts supplies PACCAR genuine parts and DAF genuine parts along with over 100,000 TRP parts for all makes of truck, trailer and LCV, including workshop supplies. From its own distribution centres, PACCAR Parts delivers within 24 hours worldwide.

DAF DEALER NETWORK

With our extensive network of professional sales and service dealers, there's always a DAF representative nearby. Highly qualified DAF technicians have in-depth knowledge of your vehicle, ensuring fast, effective repair and maintenance, using original PACCAR, DAF and TRP parts. This guarantees maximum vehicle availability and high residual value.

PACCAR CONNECT

In our drive for transport efficiency, the new PACCAR Connect Fleet Management Platform can provide realtime information anytime, anywhere, on the performance of both individual vehicles and your entire fleet, logistical processes and the performance of drivers, thereby helping you to optimise your returns.
