## THE ULTIMATE EVOLUTION

# WITH THE ULTIMATE PACKAGE

DAF has always led the transport industry in terms of total cost of ownership, with its focus firmly on efficiency, safety and driver comfort. With the introduction of the DAF Ultimate package, the DAF XF and CF evolve to the next level of excellence, offering the best driver comfort while satisfying the requirements of fleet managers and fleet owners. Naturally, care for the environment is an integral part of this package.

### Ultimate Efficiency

Transport efficiency is key, and DAF Trucks leads the way. Through a programme of continuous optimisation, we now have the most efficient vehicles on the market – cutting consumption to unprecedented levels. For example, the Tyre Pressure Monitoring System constantly checks tyre pressure, contributing to the highest possible fuel efficiency. In addition, Predictive Cruise Control determines driving conditions for up to 2 kilometres ahead. By making as much use as possible of kinetic energy, it enables additional fuel savings of up to 4%.

### Ultimate Safety

Safety is our number one priority, resulting in many important improvements and innovations over the years such as the Advanced Emergency Braking System (AEBS-3). With the DAF Ultimate package, you can maximise night-time visibility and safety using LED headlights and rear lighting, as well as standard running lights to improve daytime visibility.

### Ultimate Driver Comfort

The DAF Ultimate package incorporates new features for driver comfort. Automatic climate control makes for a cosy cab interior regardless of driving conditions. And with the accessories power supply, cabs can easily be fitted with all the necessities for longer overnight stays, like a parking cooler, microwave, fridge and TV. Better driver comfort results in safer driving, more fuel efficiency, lower operating costs and higher vehicle availability.

### DAF MultiSupport

All CF and XF models sold in the UK come with a DAF MultiSupport Package as standard

#### XF - Three Years Preventative Maintenance

Takes care of all necessary planned maintenance requirements, safety and legal inspections **excluding** tachograph recalibration, MOT preparation, presentation and fees. To a maximum mileage of 480,000 km.

#### CF - Two Years Preventative Maintenance

Takes care of all necessary planned maintenance requirements, safety and legal inspections **excluding** tachograph recalibration, MOT preparation, presentation and fees. To a maximum mileage of 320,000 km.

## DAF XF AND CF

# DAF Ultimate package

The DAF Ultimate package for the XF and CF includes a whole range of features that optimise safety, efficiency and driver comfort.

### LED HEADLIGHTS

LED lamps consume significantly less power and protect the environment.

- Dipped beam with 2 LEDs
- Daytime running light with 4 LEDs

### AUTOMATIC CAB CLIMATE CONTROL

All cab climate functions can be easily controlled from a single panel on the dashboard.

- Smart air conditioning control
- One-touch defrost and park ventilation
- Additional control panel on cab rear wall to regulate temperature and activate the auxiliary heater

### BATTERY ENERGY MONITORING SYSTEM

The Battery Energy Monitoring System measures battery voltage, current, temperature and state of charge.

- Alert on the instrument panel warns the driver when battery power level is critical, preventing roadside breakdowns
- An intelligent LIN voltage regulator prevents overcharging, extending the battery's lifespan

### TYRE PRESSURE MONITORING SYSTEM

The Tyre Pressure Monitoring System continuously monitors the pressure and temperature of the tyres.

- Information on the central display warns the driver if tyre pressure or temperature deviate from programmed limits
- Protects against tyre blowouts
- Optimises fuel consumption

### ACCESSORY POWER SUPPLY

For ultimate driver comfort, there's an extra wiring loom for accessory connectors.

- 12 V / 20 A
- 24 V / 2x15 A + 2x40 A

### PREDICTIVE CRUISE CONTROL

Predictive Cruise Control is available for vehicles with a manual or automated gearbox.

- Integrated into vehicle's cruise control function
- Control switches located in the steering wheel
- Enhances EcoRoll function for higher fuel savings
- Uses GPS technology and detailed road map data to anticipate gradient changes
- Regular road map updates free of charge

### REAR LIGHT UNITS WITH LEDS

The rear light units with built-in reflector incorporate LEDs for all functions:

- Tail lights
- Direction indicators
- Stop lights
- Reversing lights
- Rear fog lights

## Ultimate uptime

The latest DAF XF and CF models already offer significant vehicle availability, thanks to the inclusion of features such as Tailored DAF Driver Training and Vehicle Health Monitoring. The Ultimate package increases uptime even further with a Battery Energy Management system that monitors the condition of the batteries, supporting vehicle uptime.

## Ultimate environmental care

Clean diesel technology is simply part of our philosophy. The XF and CF can run on alternative fuels, such as odour-free, biodegradable HVO, producing lower emissions, without technical adjustments or reduction in vehicle performance.

## DAF Connect

All DAF models offered for sale in the UK come with DAF Connect as standard. This online fleet management system gives you real-time insight into the performance of your drivers, vehicles and logistic processes. And now with Open Platform capabilities, you can keep using your current telematics platform and integrate the DAF Connect data seamlessly, with your back-end systems.

The Vehicle Health Monitoring functionality provides the opportunity to monitor any urgent warnings via the DAF Connect dashboard.

The DAF Connect App allows drivers to compare their trucking performance with peers. It all contributes to assessing the situation, taking the correct actions to prevent downtime, and keeping your truck on the road. In addition, remote tachograph download gives fleet managers easy access to driver data, to ensure legal compliance.

For the ultimate in transport excellence.

# DAF Services

## **DAF MultiSupport**

An extensive range of repair and maintenance contracts ensures the highest quality service and support for your vehicles and predictable costs for maximum peace of mind.

## **PACCAR Financial**

PACCAR Financial, DAF's in-house finance company, is exclusively dedicated to the transport industry and offers customized financial services for new trucks, used trucks and trailers.

## **PACCAR Parts**

Besides original DAF and PACCAR engine parts, PACCAR Parts supplies over 60,000 universal TRP Truck & Trailer parts for all makes of trucks and trailers, throughout Europe.

## **DAFaid**

24/7 rapid and professional roadside assistance throughout the UK and linked to DAF International Truck Service (ITS) in Europe in ten different languages. Call 0800 919395 to contact DAFaid.

## **DAF Driver Academy**

DAF training helps drivers to achieve the lowest possible fuel consumption and improve their driving performance, in both safety and transport efficiency.

## **DAF Dealer Network**

A DAF dealer is never far away. Wherever you are in Europe, you can visit one of around 1000 DAF sales and service points. The DAF dealer will give you tailored advice and provide excellent service.
